Be Ready For Whatever Comes Your Way.

You never know when an accident may happen, but you can be prepared by knowing what to do after it happens. Knowing answers to even the most obvious questions such as where to get your vehicle repaired can aid in this stressful time.

What To Do When Involved In An Accident.

The first thing you should do is determine if anyone is seriously injured. If someone is hurt, call 911 immediately and wait for a paramedic to arrive. It may be a good idea to call the local police so there is an official report of the accident. You can utilize this brochure to document important accident information.

Who To Call When Your Car Is No Longer Operational.

Toyota Certified Collision Center associates are trained to handle not only your repairs, but also assist you with your paperwork, work with your insurance company and ensure you get the answers you need.

Know Where To Take Your Car For Repair.

It's helpful to know ahead of time where to take your vehicle for collision repair, and you have a choice when it comes to repairing your vehicle, regardless of where an insurance company recommends. We advise you to only take your vehicle to a Toyota Certified Collision Center, complete with state-of-the-art equipment and expert technicians who are Toyota specialists. We ensure your vehicle will be returned to its pre-accident condition. And, you should always insist on Toyota Genuine Parts to protect your investment.

YOUR COLLISION REPAIR RIGHTS

YOU HAVE THE RIGHT to have your car repaired by the shop of your choice. Your insurance company cannot direct you otherwise.
BY LAW you are not required to have your car repaired in a shop recommended by the insurance company.

YOU ARE NOT REQUIRED to get more than one estimate.

YOU ARE NOT REQUIRED to take your car to an insurance company's drive-in claim service.

You may legally designate your repair shop to negotiate a fair claim settlement with your insurance company.

The collision shop is not allowed to negotiate with your insurance company on your behalf without your knowledge and permission.

As stated in your policy, you have the right to require your insurance company to pay all reasonable costs (less the pre-agreed upon amount of your deductible) to restore your vehicle to pre-loss condition.

You have the right to have the same factory quality parts installed on your vehicle as the ones you are replacing without being charged for "betterment".

The insurance company has a limited number of days after proper notification to inspect your car. If additional damage is found after dismantling, the insurance company has to re-inspect after proper notification without delay.

Your insurance company must negotiate in good faith. You are entitled to a prompt fair settlement to repair your car to its pre-accident condition.

No insurance company shall issue a check or draft in payment of claim, implying acceptance of such as final or binding.

As a third-party claimant, you have the right to alternative transportation until repairs are completed if the accident was not your fault.

IMPORTANT: Difference in repair estimates is common. Ask your shop to explain the method of repair.

Ask your shop if they are: I-CAR Trained AND A. S. E. Certified
